Ms. Space.

I wanted to bring to your attention that over the past couple of months, I have received anonymous messages containing personal details about your family. Please be assured that I have deleted all relevant information and blocked the sender. These reprehensible tactics are clearly an attempt to tarnish your upcoming Commissioner bid by exploiting my grievances against both the County and the College. I will not contribute to the cesspool of local county politics, however I will continue to fight for my liberty and freedom in the face of State opporession.

Sincerely,

[redacted]
